Seed Growers,

WHO ARE THEY?

PROBABLY there is no seedsman who issues a catalogue, who does not claim to be a grower, and doubtless each does more or less growing of the seeds he sells. Surely a grower of any variety of seeds knows more about that particular variety, its purity, trueness of type, etc., than any other person; therefore, it naturally follows that we each strive to obtain our supplies as directly as possible from the grower. In purchasing from the grower, if we can rely upon what he tells us, we are absolutely sure of what we are getting, as there is no chance of getting things mixed up by having the seeds pass through two or more hands.

We claim to be *Seed Growers*—but let us prove our statements. *Seeing is believing*, and we cordially invite our friends to visit us during the months of June, July or August, and we think that we can show them a larger acreage of

Beet, Onion, Turnip, Parsnip, Tomato and Sweet Corns,

than any other grower in Connecticut, to say nothing of the many other varieties of seed that we grow in a smaller way.

We do not claim to grow *all* of the seeds we sell, but we do claim to grow a very large part of them. *Therefore*, we are *headquarters on garden seeds*, and respectfully solicit a trial order from you.

We will cheerfully answer your correspondence and promptly fill your orders.

Very truly yours,

S. D. WOODRUFF & SONS.

SEED CATALOGUE,

ORANGE, CONN.

OUR CUSTOMERS

Will always be welcome to visit us and inspect our methods, particularly in the summer season, while our seed crops are growing.

Remember that you can telephone us from any telephone in Connecticut for 25 cents; or, from 6 p. m. to 7 a. m., for 15 cents. From any telephone in New Haven Division you can talk with us for 10 cents. Telephone Number 1407-6, New Haven. This is the cheapest and best way to communicate with us, especially if in a hurry for seeds, as we can reach nearly any point in New England in 24 hours.

We test our seeds as to vitality, and our customers can always feel assured that to the best of our knowledge the seeds we send out are pure and reliable.

Unlike the past three years, the season of 1897 has been marked by a shortage in many crops, notably the potato, apple, and onion crops, and farmers are again realizing a good price for their produce. Our seed crops, though not nearly as abundant as usual, are fully up to the usual standard of excellence, and we again offer them to our friends and customers with every confidence. We trust we have merited your patronage and that we may continue to receive your orders, together with those of your friends.

GARDEN, FIELD AND FLOWER SEED CATALOGUE.

SPRING OF 1898.

HOW TO REACH US.

We are but six miles from New Haven. Take Berkshire Division of N. Y., N. H. & H. R. R., from New Haven to Orange, a ride of but 13 minutes. We are but 3 minutes' walk from Orange Station.

Long Distance Telephone.—“1407-6, New Haven Division.”

HOW TO SEND MONEY.

We will receive postage stamps if received in good condition, same as cash. Remit 'by P. O. or Express Money Order or Registered Letter. Personal check or draft received from parties of established credit. Make Postal Money Orders payable at Derby, or Orange, Conn. Orange has recently been made a Money Order office.

POSTAGE.

Seeds will be mailed postpaid in quantities of $\frac{1}{4}$ lb. and less. Quantities of $\frac{1}{2}$ lb. and over will require postage at the rate of 8 cents per lb. in addition to catalogue prices. Peas and beans require 15 cents per quart and corn 10 cents per quart in addition to catalogue prices.

EXPRESS AND FREIGHT.

On orders to the amount of \$5.00 or over, at catalogue prices, where cash accompanies order, we will deliver goods to your nearest station charges prepaid. Excepting, we cannot pay freight on potatoes. We will deliver seeds, excepting potatoes in large quantities, on short notice, free of charge, at the old-established hardware store of The John E. Bassett & Co., 754 Chapel Street and 318 and 320 State Street, New Haven, Conn., thus rendering our goods accessible to messengers and expressmen centering in New Haven.

DISCOUNTS.

Market gardeners who purchase ten, twenty or more dollars' worth of seeds naturally expect a lower price than those who purchase but a small amount, and we will make the following discounts from catalogue prices where cash accompanies order: On seeds in packets and by the ounce we will mail postpaid for one dollar, seeds to the amount of one dollar and twenty-five cents. On orders amounting to ten dollars and upwards, deduct 10 per cent. where cash is sent with order. On orders amounting to twenty dollars deduct 15 per cent. where cash is sent with order.

ABOUT WARRANTING SEEDS.

While we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty, express or implied. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

SPECIAL PREMIUM OFFERS.

TO ANY CUSTOMER

Who will send us 30 cents and the name and Post Office address of ten or more seed planters, on or before March 20th, 1898, we will mail postpaid garden or flower seeds in packets or ounces to the amount of 50 cents.

TO ANY CUSTOMER

Who will send us 60 cents and the name and Post Office address of fifteen or more seed planters, on or before March 20th, 1898, we will mail postpaid garden or flower seeds in packets or ounces to the amount of \$1.00.

A Few Varieties of Recent Introduction

..OF..

SPECIAL MERIT.

The Dirigo Beet.

We cannot too highly recommend this new beet. It is of European origin and we first tried it last season. It is an extra early flattish beet, very small top with single tap root, and one of the smoothest sorts we have ever grown. Very quick in bottoming and superior in our opinion to many other early sorts offered. We advise gardeners to plant liberally of this sort. You will make no mistake. Supply of seed quite limited. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 60c.; 5 lbs. at 50c. lb.

The Dirigo Beet.

Crosby's Egyptian Beet.

The standard early bunch beet for the up-to-date market gardener. It is a thicker beet than the Extra Early Flat Egyptian and fully as early, and bottoms very uniformly. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 80c.; 5 lb. lots at 70c. per lb.

Valentine Wax Bean.

A new round podded wax sort and the *earliest wax bean* in cultivation. Price per pkt., 10c.; qt., 25c.; pk., \$1.25; bu., \$4.00.

Currie's Rust Proof Wax Bean.

Currie's Rust Proof Wax Bean.

The earliest large podded variety and the most profitable variety for New England markets. This is the taker, tried and true above all other early sorts. Price per pkt., 10c.; qt., 25c.; pk., \$1.10; bu., \$3.75.

Davis' White Kidney Wax Bean.

One of the best all around wax beans, very prolific, medium early, excellent quality. The dried bean is pure white, kidney shaped, and the bean will there-

fore always have a commercial value. Price per pkt., 10c.; qt., 25c.; pk., \$1.25; bu., \$4.00

All Head Early Cabbage.

All Head Early.

uniformity and sure heading qualities of the best second earlies. I believe it will become the leading main crop cabbage.

Prices of seed grown by the originator: pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 75c.; lb., \$3.00.

Fordhook Pickling Cucumber.

This new variety is early, and it is also distinct and valuable in that it continues to produce its fruit long after other sorts have ripened and ceased bearing. Said by the grower to be the finest cucumber for a pickling sort in existence; also valuable as a table cucumber.

Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 25c.; lb. 75c.

The New Squash, White Summer Crookneck.

This beautiful novelty we have been perfecting for the past two years and it is now fixed in form and color. It grows to a larger size than the ordinary yellow Summer Crookneck, more nearly approaching the Giant Summer Crookneck. It is of a beautiful white ivory color and attracts attention wherever displayed.

Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., 80c.

First of All Sweet Corn.

After most thoroughly testing this sweet corn, we can safely call it the earliest sweet corn in the market. From 3 to 5 days ahead of Cory, its parent. We have taken great pains in selecting our stock seed of this variety and can heartily endorse its extra earliness.

Price per doz. ears, 30c.; pkt., 10c.; qt., 20c.; pk., 80c.; bu., \$3.00.

New Champion Sweet Corn.

This variety is said to be the largest eared early corn yet produced. It is pure white kernel and cob and but a few days later than First of All, Cory, Marblehead, Tom Thumb, etc. It has been grown fit for table use in 61 days from planting, which is evidence of its earliness. It is very popular with the Long Island gardeners.

Price per pkt., 10c.; qt., 20c.; pk., 90c.; bu., \$3.00.

Early Yellow Cracker Onion.

This is the earliest of all onions. A flat, very hard and good keeping onion. Specially valuable for the early market; frequently yields of 300 to 400 bushels per acre are reported to us from those who have had the seed from us for past two or three years. Our stock of this sort is extra fine, though limited.

Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.50; 5 lb. lots at \$1.40 per lb.

Shropshire Hero Pea.

This valuable, new, second early wrinkled pea is a decided improvement on the old Yorkshire Hero. It is a robust grower, about 3 feet high, producing long, handsome and well-filled pods in abundance. Flavor exquisite. We recommend it highly.

Price per pkt., 10c.; qt., 25c.; pk., \$1.25; bu., \$4.00.

Juno Pea.

This pea is being largely used to replace the Pride of the Market by those gardeners who have tried it. Pod very dark green. Vine short, very profuse cropper. Pods remain green unusually long after becoming fit for market.

Price per pkt., 10c.; qt., 25c.; pk., \$1.25; bu., \$4.25.

New Pea, Nott's Excelsior.

As early as American Wonder, much more prolific, with larger pods. Destined to take the place of American Wonder, as it is in every way better.

Price per pkt., 10c.; qt., 25c.; pk., \$1.25; bu., \$4.25.

Rural Thoroughbred White Flint Corn.

A great ensilage sort, spreading habit; not more than two to three stalks should be left in a hill. Its great suckering habit, breadth of blade and smallness of stalk combine to make it a most valuable sort for both fodder and ensilage. Our stock is very limited.

Price per qt., 10c.; pk., 50c.; bu., \$1.50; 5 bu. lots at \$1.35 per bu.

"Cupid" Sweet Pea.

This unique novelty, introduced last season, is truly a dwarf sweet pea, growing only 5 to 6 inches high, pure white, but hardly as profuse a bloomer as we had hoped to see it. At the reasonable price at which we can offer this seed this season all should give it a liberal trial.

Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 40c.; lb., \$1.25.

N. B. Note our offer on page 2, to deliver your seeds free at your station in quantities, provided your order amounts to \$5.00 or over.

Our Cabbage Seeds are not the cheapest but the best that can be grown. We make a specialty of Cabbage Seed and our friends can depend on them.

BRUSSELS SPROUTS.

Sow the same as cabbage, through May, and transplant in July.
Improved Dwarf. Price per pkt., 5c.; oz., 15c.

CARROTS.

Our strains of carrot will be found superior to much of the cheap seed on the market. We grow carrot seed extensively and our customers can rely upon their reliability. We would make particular mention of our Danvers and Nichols Improved Long Orange sorts.

Early French Forcing. Nearly round, for forcing. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 80c.

Early Short Horn, or Scarlet Horn. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 80c.

Chantenay Half Long Scarlet. Stump rooted, fine strain. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 75c.

Saint Vallery, or Intermediate Red. One of the most popular truckers' sorts. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

Oxheart, or Guerande. Great yielder, short and thick. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 75c.

Danvers Improved. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 75c.

Nichols Improved Long Orange. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 20c.; lb., 75c.

(Five pounds and over at 10c. per lb. less than above prices.)

Improved Long Orange.

Our specialties are Sweet Corn, Beet, Cabbage, Carrot, Onion, Turnip, Parsnip and Vine Seeds, Peas and Beans. Our stocks are the best obtainable.

CAULIFLOWER.*Henderson's Early Snowball Cauliflower.*

Our Cauliflower seed is all grown in Denmark, and is *proven seed*; that is, seed that is one year old and that has been tested and has produced a good crop.

We would make particular mention of our Henderson's Early Snowball, as it comes to us direct from the grower.

Henderson's Early Snowball. Very largely grown for an early crop. It is dwarf and a sure header; heads are large, white and solid. Pure stock. Price per pkt., 15c.; oz., \$2.50; lb., \$25.00.

Extra Early Dwarf Erfurt. One of the earliest varieties, and an old favorite; fine quality. Price per pkt., 15c.; oz., \$2.50; lb., \$20.00.

Le Normand's Short Stem Mammoth. A large stumped variety, and a standard for general cultivation. Price per pkt., 10c.; oz., 60c.; lb., \$7.00.

CELERY.*Dwarf Golden Heart.* and White Plume.

Celery seed is perhaps the slowest seed to germinate that the average gardener has to contend with. We would say to those who have had little or no experience that they must have patience and not condemn the seed until it has had a fair trial. It is often more than three weeks before any sprouts will be seen, and they will then start slowly and apparently very weak. It is well to spread a thin cloth over the soil until the sprouts begin to show and frequently sprinkle the cloth to keep it moist.

Our Celery seed this season is of unusual strong vitality, and it can be depended upon by the most critical for purity. We especially recommend our strains of Golden Self Blanching

*Boston Market.***GOLDEN SELF BLANCHING.**

The Golden Self Blanching, for an early variety, easy to blanch, is of great value. It is so liable to sport and run back to the green stalk varieties, that we sell only **PROVEN SEED**.

We have for some years been endeavoring to get a stock of this grand variety that would be free from "rogues." Our seed has given such excellent results the past season that we now offer it again with every confidence. **BEWARE OF CHEAP SEED** of this variety. The true and pure stock cannot be grown for a low price.

SWEET CORN.

We are headquarters for Sweet Corns; our location has long been famous for producing the best Sweet Corn Seed in America, and it is grown more largely in our own and the adjoining towns of Milford and Woodbridge than anywhere else in the East.

The crop the past season has been the shortest for a great many years. The exceedingly wet season ruined many crops, and considering the choice quality of the seed we offer, our prices are very low.

We grew last season more than thirty varieties of Sweet Corn, and as space will not permit a description of each variety, we will simply list them, and can guarantee our stock to be the best obtainable. (Add 5 cents per pt., 10 cents per qt., if sent by mail.)

CORN—Field and Sowing Varieties.

Price on Field Corns are not subject to discounts.

Early Eight-Rowed Yellow Canada. Very early; cob small; produces two or three ears to the stalk, and grows from four to five feet high. Price per 100 ears, \$1.25; qt., 10c.; pk., 50c.; bu., \$1.40.

Longfellow. This is the standard variety in this section; long ear, small cob, bright color and medium early. Price per 100 ears, \$1.50; qt., 10c.; pk., 50c.; bu., \$1.40.

White Southern Ensilage. A common white variety, grown here considerably for soiling purposes; sown either broadcast or in drills. Price per qt., 10c.; pk., 30c.; bu., \$1.00; 5 bu. lots at 80c.

Improved Leaming. A very early dent variety, deep kernels, small cob; a great favorite in this locality. Price per qt., 10c.; pk., 50c.; bu., \$1.40; 5 bu. lots at \$1.25; per 100 ears, \$1.25.

Sanford Improved. The standard white flint variety; used largely for ensilage and a superior sort for this use. Price per 100 ears, \$1.50; qt., 10c.; pk., 40c.; bu., \$1.35; 5 bu. lots at \$1.15 per bu.

Corn—Field and Sowing Varieties—continued.

Early Mastodon Dent. A very early strong growing corn, with exceedingly large ears and grain. In the *American Agriculturist* corn contest in 1889 it outyielded all others, making the wonderful record of 213 bushels of shelled corn to the acre. Price, 100 ears, \$1.50; qt., 10c.; pk., 50c.; bu., \$1.50; 5 bu. lots at \$1.35 per bu.

Rural Thoroughbred White Flint. (*See Novelties.*) Per qt., 10c.; pk., 50c.; bu., \$1.50; 5 bu. lots at \$1.35 per bu.

SWEET FODDER CORN.

We can offer a choice lot of Sweet Corn, all large growing varieties, and those who buy a quantity for ensilage generally prefer the Sweet Corn to a field variety. Price per bu., \$1.35; 5 bu. or more at \$1.25 per bu.

You will find this a nice sample and the price is very low.

Bear in mind that we are extensive dealers in Corn of all kinds and will be glad to quote special prices on large lots.

CUCUMBERS.

Cucumbers succeed best in warm, moist, rich, loamy ground. They should not be planted in the open air until there is a prospect of settled warm weather. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the soil, in each a shovelful of well-rotted manure. When all danger from insects is past, thin out the plants, leaving three or four of the strongest in each hill. The fruit should be plucked when large enough, whether required for use or not, as if left to ripen on the vines, it destroys their productiveness.

We grow Sweet Corn in large quantities and can sell at reasonable figures.

Onion growers will do well to buy their seed direct from the growers of the seed. Our seed is all thoroughly tested and we could print pages of testimonials from large growers who will have our seed at almost any cost.

CORN SALAD.

Used as a salad throughout the Winter and Spring, and extensively grown for market. Sow in Spring in drills one foot apart; it will mature in six to eight weeks. For Winter and early Spring use, sow in drills in August and September. Cover with straw on the approach of Winter, the same as Spinach.

(Add 8 cents per lb. if sent by mail.)

Large Seeded. Large leaved, the same variety. Price per pkt., 5c.; oz., 10c.; lb., 60c.

CRESS, OR PEPPERGRASS.

Extensively used as a small salad. Sow early in the Spring, very thickly, in shallow drills. The sowing should be repeated at short intervals, as it soon runs to seed. One ounce of seed will sow a bed of sixteen square feet.

(Add at the rate of 8 cents per lb. if sent by mail.)

Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 40c.

DANDELION.

The Dandelion resembles Endive, and affords one of the earliest as well as one of the best and most healthful Spring greens. It is also sometimes blanched and used as a salad. The roots, when dried and roasted, are often employed as a substitute for coffee. The seeds may be sown in May, in drills ten inches apart; thin out the young plants about three inches apart; cultivate during the season, and the following Spring plants will be fit for the table.

(If by mail add at the rate of 8 cents per lb. for 1-4 lb. and upwards.)

Improved Large Leaf. Price per pkt., 10c.; oz., 35c.; $\frac{1}{4}$ lb., \$1.00; lb., \$3.75.

New York Improved Egg Plant—Spineless.

EGG PLANT.

The Egg Plant should be grown in every garden, as it is one of the most delicious vegetables grown. It is easily cultivated. Plants should be started in hot beds in February or March and not transplanted into open ground until settled weather.

New York Improved Large Purple Spineless. The leading market variety, of large size, skin deep purple, smooth, free of thorns, flesh white, of excellent quality; very productive. This is without exception the best egg plant in cultivation, and so much surer to bear than the *Black Pekin* that we have discarded the latter. Our seed is an extra selected strain, of superb quality. Planters will do well to try our strain of egg plant, as none better grows. Price per pkt., 5c.; oz., 35c.; $\frac{1}{4}$ lb., \$1.10; lb., \$3.75.

ENDIVE.

London Green Curled. A very hardy variety, easily blanched. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Broad Leaved Batavian. Large leaves, long and broad. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

KALE, OR BORECOLE.

Borecole, or Kale, may be grown in almost any soil, but the richer it is the more abundant the product. Sow from the middle of April to the beginning of May, in prepared beds, covering the seeds thinly and evenly; transplant in June and treat in the same manner as for cabbage. The leaves are fit for use as soon as touched by frost.

We have many testimonials from our Dandelion and Egg Plant Seed.

Large Musselburg, or Carentan. The largest in cultivation. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.50.

LETTUCE.

Culture. Lettuce, the most useful of all salads, is easy of culture, being free from all diseases and insects. It requires rich, moist soil, clean cultivation and plenty of water. This will give the quick growth on which depends its appearance, tenderness and flavor. For early Spring use, sow in a seed bed in September or October, and protect through the Winter with cold frames. *(Add 8 cents per lb. if sent by mail.)*

HOME GROWN ONION SEED.

We are Headquarters on Connecticut Crown Onion Seed Grown from Selected Bulbs and Grow Annually on our Farms many Thousand Pounds.

We feel that we are justified in "blowing" our onion seed. No better seed can possibly be produced than we offer. Our bulbs are carefully selected by hand and we think that we have a right to claim that the seed grown from such bulbs is far superior to much of the seed offered at cheap prices.

IMPORTANT.

It is not enough for the experienced onion grower to know that the seed he sows will germinate and come up and even make a crop. The man of experience knows that to be a profitable crop it must grow uniformly and bottom quickly and ripen down early. Seed that will produce such a crop can only be had after careful selection of the best shaped bulbs.

The very best evidence of the superiority of our onion seed is shown by the fact that from the few pounds of seed which we sold at retail in 1892 (that being the first year which we published a catalogue and the beginning of our retail business), our sales the past season to the planters who used our seeds reached into the thousands of pounds.

Remember our prices include delivery to your nearest station. See page 2.

YELLOW GLOBE DANVERS ONION.

We place this variety at the head of the list, as it is the most popular in New England, and our stock is one of the finest obtainable. The reports from our seed the past season have been most flattering. In our 1897 catalogue we reported that many crops of from 900 to 1,000 bushels per acre were grown from our seed the previous season. This was actual fact. While we cannot report as great a yield from any crops, season of 1897, it is for the reason that the season was very unfavorable and not through any fault of the seed.

PRICES FOR 1898.

Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.25; 20 pounds and over at \$1.15 per lb.; 50 lbs. and over at \$1.10 per lb.

The present high prices of onlons creates naturally an increased demand for onion seed, and while we could, we feel sure, get a higher price for every pound of our **YELLOW GLOBE DANVERS** onion seed, we prefer to sell at a fair price. We will fill orders as long as our stock holds out at the above prices.

What some growers say of our Yellow Globe Danvers Onion.

HATFIELD, MASS., Nov. 6.

MESSRS. S. D. WOODRUFF & SONS:

SIRS: It gives me great pleasure to give to you the result of my first use of your onion seed the past season.

From one measured acre of ground sown with Yellow Globe Danvers onion seed procured of you, I have harvested nine hundred and eighty-three (983) bushels of weighed onions, 52 lbs. to the bushel.

Yours truly,

JAMES PORTER.

CHITTENANGO, N. Y., Jan. 5, 1897.

S. D. WOODRUFF & SONS:

GENTLEMEN: The onion seed we bought of you was very satisfactory.

Yours truly,

PENNOCK & SON.

Mr. Oscar Belden of No. Hatfield, Mass., who used our seed for the first time last year, says:

"My onions grown from your seed yielded one-third more than from other seed."

SUNDERLAND, MASS., Dec. 2.

S. D. WOODRUFF & SONS:

When I was drawing my onions this Fall, I talked with a great many about your onion seed, and when they saw my onions they called them the best they had seen and said they should get your seed next year.

Yours truly,

HENRY TILSON.

Under date of Oct. 9, Mr. D. C. Twogood of Canastota, N. Y., a large and progressive onion grower, writes:

"Your onion seed turned out good."

We could fill pages with similar testimonials and words of praise for our onion seed, but space will not permit.

Our prices on our own grown onion seed are net, not subject to discounts. Selling direct to the planter we are enabled to sell our very fine strains at reasonable prices.

N. B. You can telephone us from any point in Conn. for 25c. and may deduct that amount from an order of \$5.00 or over.

We advise our customers to send in their orders for onion seed early. Last season we sold out of some sorts and could not fill late orders.

Southport White Globe. This is the variety which is grown to perfection in Connecticut and is so highly esteemed and usually high priced in the New York markets. It is usually a shy seeder, and it necessarily costs more to produce the seed than seed of any other sort. With due respect to the Southport growers who feel unsafe in purchasing their supplies other than from their own immediate neighbors, we feel that there is no better seed obtainable than that which we offer, all of which we grew from the very finest selected bulbs. Price per pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.25; 5 lbs. and over at \$2.00 per lb.

Mr. John H. Jennings, Southport, Ct., who is one of the largest and most thorough growers in the state writes: "The seeds I got of you all did well. I have a large crop of onions this year."

Southport Yellow Globe. This variety does not differ in shape from either the Southport White or Red Globes. It is a true globe and fixed in its habit, that is, it does not deteriorate and run back to a flat onion, as will the Yellow Globe Danvers unless constantly selected. It is an enormous yielder of fine quality. Price per pkt., 5c.; oz.,

20c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.25; 5 lbs. and over at \$1.15 per lb.

Messrs. Pennock & Son, who are the largest onion growers in Madison Co., N. Y., say: "We had the best results from your Southport Yellow Globe onion seed, of any seed we used last year."

Southport Red Globe. Differs from preceding only in color; the best Red Globe onion grown. Heavy yielder and the very best keeper. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.25; 5 lbs. and over at \$1.15 per lb.

Extra Early Red Flat. About ten days earlier than the Wethersfield, and somewhat smaller; close-grained and heavy, of mild flavor and an excellent keeper. A great favorite among the Orange Co., N. Y., growers. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00; 5 lb. lots at 90c. per lb.

The Early Yellow Cracker onion is the earliest of all yellow onions.

Onions—continued.

Early Yellow Cracker. This is undoubtedly the earliest yellow onion that can be grown from the seed. It is quite flat, sure to bottom and getting more and more popular for a first early sort. It is also a remarkably good keeper. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.; lb., \$2.00.

Large Red Wethersfield. A leading variety in the Eastern States; it grows to full size the first season from seed, almost round, large size, deep red color and keeps well. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00; 5 lb. lots at 90c. per lb.

Yellow Danvers. A heavy cropping, early flat sort, used in some sections almost exclusively. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 90c.; 5 lb. lots at 75c. per lb.

White Portugal, or Silverskin. A very mild, early sort, used extensively for pickling. This is the variety also used so extensively for raising sets. We have a very fine but limited stock and advise early orders. Price per pkt., 5c.; oz., 20c.; $\frac{1}{4}$ lb., 60c.; lb., \$1.75; 5 lb. lots at \$1.50 per lb.

Yellow Dutch, or Strasburg. A very hardy, bright straw-colored onion, good keeper, somewhat flattened, very solid and firm. This variety is used more than any other yellow sort for raising sets and is peculiarly adapted for that purpose. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., 90c.; 5 lbs. at 75c. per lb.

Mammoth Prize Taker, or Large Yellow Spanish. This is the large, beautiful onion that is seen every Fall offered for sale at fruit stores in the large cities. They are a rich straw-color, and of enormous size, averaging twelve to fourteen inches in circumference. The flavor is mild and delicate, making the Prize Taker a favorite variety for slicing for salads. Price per pkt., 5c.; oz., 25c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.80; 5 lbs. at \$1.60 per lb.

We shall be pleased to make special prices to any of our customers who purchase large quantities of onion seed. Frequently we have customers who use from 25 to 50 or more pounds of onion seed, and they naturally expect to pay a little less than those who order but a pound or two.

Onion Sets.

CHOICE PHILADELPHIA GROWN SETS.

We are Headquarters for Connecticut.

Last year we strongly urged our friends to set out onion sets more than usual, as the probabilities were they would pay well. The result was that we sold more onion sets than ever before, and without exception our customers reported that they made money from their crop of onions grown from the sets we sold them.

We again urge our customers to set out onion sets freely, as you can hardly fail to make a good thing. Onions are at present high, and the first in the market with good onions next July will get good prices.

YOU WILL FIND OUR ONION SETS OF VERY CHOICE QUALITY.

Onion Sets.

Prices are net and subject to advance, and in all probability will be much higher. Order early and take advantage of these very low prices.

The Meeker Smoothing Harrow.

No one who raises one acre or more of onions can afford to be without this tool. It does away entirely with hand raking the soil. Upon our own farms we would not be without one for three times its cost. Price, \$20.00, or $7\frac{1}{2}$ per cent. discount for spot cash with order.

Meeker Smoothing Harrow.

Net price \$18.50, delivered to your station.

PARSLEY.

One of the finest plants for garnishing; used for flavoring soups, stews and salads. Sow as early as possible in Spring, in shallow drills fifteen inches apart, raking the soil fine and level on top. Cover the seed one-third of an inch. The plants appear in from two to six weeks. Succeeds in common garden soil.

Champion Moss Curled. The standard market sort. Our stock of this is extra double curled and one of the finest stocks to be had. Used very extensively on Long Island. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 65c.; 5 lbs. at 60c. per lb.

Fern Leaf. Very fine crimped leaves. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

Plain Leaf. A very hardy variety. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

PEAS.

Like many other seed crops the pea crop suffered from the excessive wet season and the yield was only about two-thirds of an ordinary crop.

The samples of our seed, however, are extra nice and bright, and those who have used our pea seed know of its purity and genuineness. All are Northern grown and the growing crops were thoroughly "rogued" by hand during the growing season.

Notwithstanding the short crops we have made prices lower than ever before.

Nott's Excelsior.

THE GREATEST OF ALL—Extra early dwarf wrinkled sorts.

Nott's Excelsior Pea. This is a very fine new extra early dwarf wrinkled pea, foliage dark green; the pods average fully one-third larger than the *American Wonder*, and are all ready for picking at one time. Price per pkt., 10c.; qt., 25c.; pk., \$1.20; bu., \$4.25.

Plant liberally of Nott's Excelsior pea; it is a winner.

Peas—continued.

We have the following well-known varieties of Extra Early round varieties, all true to name. The growing stocks were all thoroughly "rogued" by experienced growers and stock is of the very finest.

PARSNIPS.

The Parsnip is one of our specialties. We raise annually a great many hundred pounds and our strain is the smoothest and finest in existence.

Long Smooth, or Hollow Crowned. This standard variety grows large and free from side roots, excellent flavor and good keeper. We make a specialty of growing parsnip seed. We raise annually large quantities of this variety, and think there is none better than our strain. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 50c.; 5 lb. lots at 40c. per lb.

Choice Northern Grown Seed Potatoes.

We are headquarters on Northern Grown Seed Potatoes, and our friends can rely on the seed for its purity.

Prices on potatoes are net cash, not subject to discount. All potatoes are shipped at risk of purchaser. F. O. B. cars, Orange, Conn. (Prices subject to advance.)

When we assure our customers that our seed potatoes come from the same source as last year, they will not hesitate to order, as our seed gave best of satisfaction. Hardly a man that used our seed but what got his potatoes up all right, while there was much complaint from those who bought some inferior stock.

We have no startling novelties, but have adhered to well-known standard sorts that are known to be satisfactory.

Why not include in your order for seeds your supply of Paris Green? Our prices will save you five or more cents per pound, as it is almost sure to advance to usual high prices at using time.

We handle only C. T. Raynolds' brand, strictly pure. Prices, per pound box, 18c. per lb.; 10 lbs. and over at 16c. lb. net cash.

PARIS GREEN.

C. T. Reynolds' brand, strictly pure, pound boxes at 18c. per lb.; 10 lbs. and over at 16c. per lb.

PUMPKINS.

Pumpkins are grown for feeding stock, and the finer grained varieties make excellent pies. They may be grown as described for squashes, but the common manner of cultivation, and the least troublesome, is to plant them with corn, dropping two or three seeds in every third hill.

(Add 8 cents per lb. if sent by mail.)

Large Cheese. Hardy, remarkably prolific, and much superior in all respects to most of the field grown sorts. Sweet and well flavored. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 40c.

Winter Crookneck. An old standard sort and good keeper; flesh close grained and flavor excellent. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 25c.

RADISH. (Rettig.)

These require a light loamy soil, moderately fertile; it should be dug a full spade deep, and well pulverized. Manures should not be applied at the time of sowing. The situation should be warm and sheltered. For an early supply, sow in January or February in hotbeds, plenty of ventilation being necessary. In May they may be sown out of doors. Successive sowings should be made every two weeks.

*Round Black Spanish.*

Try sowing some Radish seed broadcast in corn.

SALSIFY, OR OYSTER PLANT.

Salsify, or Vegetable Oyster, is considered by many a great luxury. Sow in early Spring, in light, rich soil, in drills fourteen inches apart; thin the plants to three inches in the row. The roots will be ready for use in October, and, like the parsnip, improves by remaining in the ground through the Winter. (*If sent by mail, add at the rate of 8 cents per lb. for $\frac{1}{4}$ lb. and upwards.*)

Mammoth Sandwich Island. This variety originated in the Sandwich Islands; of enormous size, more than double the size of the ordinary kind. Roots grow long, large, smooth and white, and of exceedingly tender quality. Price per pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

SPINACH.

We are headquarters on Spinach Seed, and supply annually the most critical of customers. Buying as we do in such large quantities, we are enabled to sell at correspondingly low figures.

(*Add 8 cents per lb. if sent by mail.*)

Round Thick Leaf. One of the very best for early Spring or Fall sowing; leaves large, thick and succulent. Price per pkt., 5c.; $\frac{1}{4}$ lb., 10c.; lb., 30c.; 10 lb. lots at 20c. per lb.; 50 lbs., at 13c. per lb.

Norfolk Savoy-Leaved. (Bloomsdale) The leaves are numerous, succulent, curled and wrinkled like a Savoy cabbage. It produces nearly twice the weight of crop as the ordinary sorts. Price per oz., 5c.; $\frac{1}{4}$ lb., 10c.; lb., 30c.; 10 lb. lots at 20c. per lb.; 50 lb. lots at 14c. per lb.

Giant, or Monstrous Viroflay. Leaves very large. Price per oz., 5c.; $\frac{1}{4}$ lb., 10c.; lb., 30c.; 10 lb. lots at 20c. per lb.; 50 lb. lots at 13c. per lb.

Long Standing. So called because it will stand more severe weather and does not run to seed as quickly as some of the other varieties. Price per oz., 5c.; $\frac{1}{4}$ lb., 10c.; lb., 30c.; 10 lb. lots at 20c. per lb.; 50 lb. lots at 13c. per lb. (*Write for special prices on larger quantities.*)

SQUASH.

The Squash is a very tender vine, and so sensitive to the cold that it cannot with safety be planted out until the weather becomes warm and settled. Plant in hills ten feet apart for running varieties, five feet for bush sorts, working some fine rich manure into each hill. Sprinkle liberally with plaster, wood ashes or air-slacked lime, in the early stages of growth. Cultivate until runners are well started. (*Add 8 cents per lb. if sent by mail.*)

SWEET, POT AND MEDICINAL HERBS.

Every garden should have its complement of Sweet Herbs. We can all appreciate their utility, both for summer flavoring and their opportune use medicinally. Their culture is so easy that none ought to be without them. Sow the seed in pan or seed bed in early Spring, transplant as soon as weather will permit. Cut them when not quite in full bloom and hang in shady place to dry. Pack away in box entirely excluded from the air.

HOT-BED SASH.

Standard Size, 3 x 6 feet. Price, \$2.00 each; in lots of ten or more at \$1.85 each.

PALMER'S HOT-BED MATS.

FROST PROOF.

Made expressly for Winter covering of hot-beds, cold frames, plants and seeds of all kinds.

Indestructible, Cheap and Warm.

Will not harbor mice or vermin. Easily handled. Dry out quickly after rain. Have now been in practical use three years. Cost less than old-fashioned straw mats and entirely take their place.

MADE IN FOLLOWING GRADES:

No. 1.—Burlap Cloth, filled with combination wool and quilted, seams 3 inches apart and edges firmly bound.

Size 40x76 inches, 60 cents each.

Size 76x76 inches, 85 cents each.

Made any length, 76 inches wide, at 12 cents per running foot.

No. 2.—Duck Cloth outside, filled and quilted same as No. 1.

Size 40x76 inches, \$.85 each.

Size 76x76 inches, 1.10 each.

Made any length, 76 inches wide, at 16 cents per running foot.

No. 3.—Waterproof, made of oil duck, filled and quilted the same as Nos. 1 and 2.

Size 40x76 inches, \$1.15 each.

Size 76x76 inches, 1.40 each.

Made any length, 76 inches wide, at 20 cents per running foot.

That these mats are a much needed improvement over anything heretofore used for the same purpose, is demonstrated by the large demand and many testimonials from prominent men in the trade. Everyone using hot-bed mats should give them a trial.

Above prices are for net cash, delivered to your station in lots of one dozen or more.

We have tried these mats ourselves and find them exactly as represented. The most economical mat by far that we have ever seen.
